Art Unit: 1621

Claims 1-8 are pending in this application which should be reviewed for errors. In response to the restriction requirement, applicants elected group I without traverse drawn to compounds of formula I wherein Q is N and in response to the further election of a single disclosed species elected methylphenylsulfonyliminosulfonyl(methyl substituted) benzene sulfonic acid. Applicants' non-heterocyclic, non-polymeric, sulfonic acid compounds wherein Q is N are examined therewith with all other compounds and claims 4-6 held withdrawn.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 and 7-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Sommer et al., US 3,891,619. Sommer et al. disclose amines of formula IV as intermediates for dyestuffs. N-(4-amino-3-methylphenylsulphonyl)-3-amino-phenylsulphonic acid and many additional anticipating compounds are disclosed (s. Col. 3-6 and the table).

No claim is allowed.
